Born in Mexicali, Baja California, México (Oct-1955)

BioEstadística, S.C., Company Founder since 11-Jan-1997. President of the Steering Board

ABSTRACT

After 10 years of experience as consultant in Mathematical Optimization for industrial companies such as Gamesa, DeAcero, Cemex, Galvak, Vitro, etc., in 1997 he founded BioEstadística, S.C., whose Mission and Vision are:

Mission: Collaboration with health research organizations to help improve integral health indices. Assist them in research programs for the implementation of new, effective, and more accessible medical treatments.

Vision 2010: Reach the first place in Latin America, in our specialty, by 2010 (goal achieved in that year).

Next goal: Reach one of the top 10 places worldwide, regarding companies in our niche.

STUDIES

- M.Sc. in Informatics, UANL, Monterrey, Mexico. (1984-1986).
- M.Sc. in Statistics, Colegio de Postgraduados, Chapingo, Mexico (1980-1981).
